

The new Dan Byrd Super Shooter is designed by Byrd for Cowboy Mounted Shooting. With a fiberglass reinforced wood tree suitable for roping, it'll pull double duty in competition and around the ranch. The close contact skirt puts you close to the horse for precise cueing, the moderate swell and short horn stay out of the way when reaching for guns, fenders are placed for optimum mobility, and pretwisted stirrup leathers relieve joint fatigue. Matching rear cinch set included.

DAN BYRD SUPER SHOOTER

"My new Super Shooter was designed for the all around competitor. This saddle has the versatility to take you from the ranch to the arena."
- Dan Byrd

NEW

Dan Byrd is a professional horse trainer and competitor in Cowboy Mounted Shooting. With more than 20 years professional experience in the horse training industry, he has produced winning horses in Cowboy Mounted Shooting and a variety of Western and English disciplines.
